Company Overview

BLOGRE Company limited is a company established and registered in Tanzania in 2024. Our employees or staffs have more than three years' working experience in the field of cleaning and fumigation service at various companies here in Tanzania. Our employees have been working in various companies like SWAFATI Company limited, care sanitation and international super cleaning, Tabora Water Supply and Sanitation Authority (TUWASA), Institute of Accountnacy Arusha- IAA and The University of Dodoma. Some of our staffs have attended a three months course of cleaning offered at VETA in Arusha region. Other staffs have attended courses offered by the Tanzania plant health and pesticides authority (TPHPA) in Arusha headquarter

concerning fumigation and pest control. The founder/ Manager of the company have more than five years working in the field of procurement and supply chain management.

The cleaning and fumigation industry in Tanzania plays a crucial role in maintaining public health, hygiene, and environmental safety. BLOGRE Company provide professional cleaning, pest control, and fumigation services to residential, commercial, and industrial clients. These services are essential in mitigating health risks associated with poor sanitation and pest infestations

The company was established in response to the growing demand for professional cleaning and fumigation services in Tanzania. The rise in urbanization, development of residential estates, and growth of industries such as tourism and hospitality have significantly increased the need for expert sanitation services. The company's foundation is often rooted in providing high-quality, efficient, and eco-friendly solutions.

With a strong commitment to quality and customer satisfaction, BLOGRE Company has grown to become a trusted name in the industry, serving businesses, government institutions, hospitals, schools, and households across Tanzania.

Our team of trained professionals uses advanced equipment and eco-friendly cleaning products to deliver exceptional results. We take pride in providing safe, effective, and timely solutions for all your cleaning and fumigation needs

Our Vision

To be the most trusted and innovative provider of cleaning and fumigation solutions in Tanzania, fostering healthier, cleaner, and safer environments for homes, businesses, and communities in Arusha Region and Tanzania Mainland.

Our mission

To deliver exceptional cleaning and fumigation services that exceed client expectations, leveraging eco-friendly practices, advanced technologies, and a dedicated team to promote hygiene, health, and well-being across Tanzania.

Our Values

- ❖ **Health & Safety** – Prioritizing the well-being of customers, employees, and the environment by using safe and effective pest control methods.
- ❖ **Environmental Responsibility** – Committing to eco-friendly fumigation solutions that minimize harm to nature.
- ❖ **Compliance & Quality Standards** – Adhering to Tanzanian pest control regulations and maintaining high industry standards.
- ❖ **Professionalism** – Ensuring highly trained and certified staff deliver expert fumigation services
- ❖ **Integrity & Transparency** – Building trust through honest communication and ethical business practices.

- ❖ **Customer Satisfaction** – Ensuring high-quality service, prompt response, and effective pest control solutions.
- ❖ **Innovation & Efficiency** – Utilizing modern fumigation techniques and continuous improvement in service delivery.
- ❖ **Reliability & Commitment** – Being dependable and delivering consistent results for clients
- ❖ **Community Well-being** – Educating and engaging with local communities on pest control and hygiene for a healthier environment.

The objectives for which the Company was established are:-

(i) Pest Control and Prevention

Provide effective fumigation services to eliminate pests, rodents, and insects in residential, commercial, and agricultural spaces. Implement preventive measures to minimize future infestations.

(ii) Compliance with Regulations

Adhere to Tanzania's health, safety, and environmental regulations for pest control. Obtain necessary licenses and certifications from relevant government authorities

(iii) Promote Environmental Sustainability

Utilize environmentally friendly cleaning products and fumigation methods that comply with national environmental regulations and standards.

(iv) Enhance Health and Safety

Create safe and hygienic environments for residential, commercial, and industrial clients by eliminating pests and maintaining cleanliness.

(v) Customer Satisfaction

Prioritize customer satisfaction by offering reliable, timely, and cost-effective services while addressing specific client concerns.

(vi) Empower Local Communities

Provide employment and training opportunities for local Tanzanians, particularly in underprivileged areas, to build a skilled and empowered workforce.

(vii) Adopt Innovative Solutions

Continuously invest in modern cleaning and fumigation equipment and adopt innovative practices to improve service efficiency and effectiveness.

(viii) Employee Training and Development

Train employees on the latest fumigation techniques, safety protocols, and customer service. Ensure continuous skill development and adherence to best practices

(ix) Use of Safe and Eco-Friendly Methods

Employ environmentally friendly fumigation techniques to reduce health and environmental risks. Ensure proper disposal of fumigation chemicals in compliance with environmental standards

(x) Business Growth and Market Expansion

Expand services to new regions and industries, including agriculture, hospitality, and real estate. Build strong partnerships with businesses and government institutions

(xi) Innovation and Technology Adoption

Invest in modern fumigation equipment and technology for efficiency. Utilize data-driven pest monitoring and control systems

OUR SERVICES

Upon receiving your enquiry regarding specific pests including: Cockroaches, bees, wasps, rodents, and bedbugs, our specialist advisers will first make a visit to assess your place/ office both inside and out. Depending on the outcome of the survey, a number of different options will be presented to you, for your approval. If required, we may recommend a regular maintenance programme to prevent the re – occurrence of pests.

Our company is specialized in cleaning and fumigation services in Tanzania that focus on delivering high-quality, tailored solutions that meet the diverse needs of residential, commercial, and industrial clients.

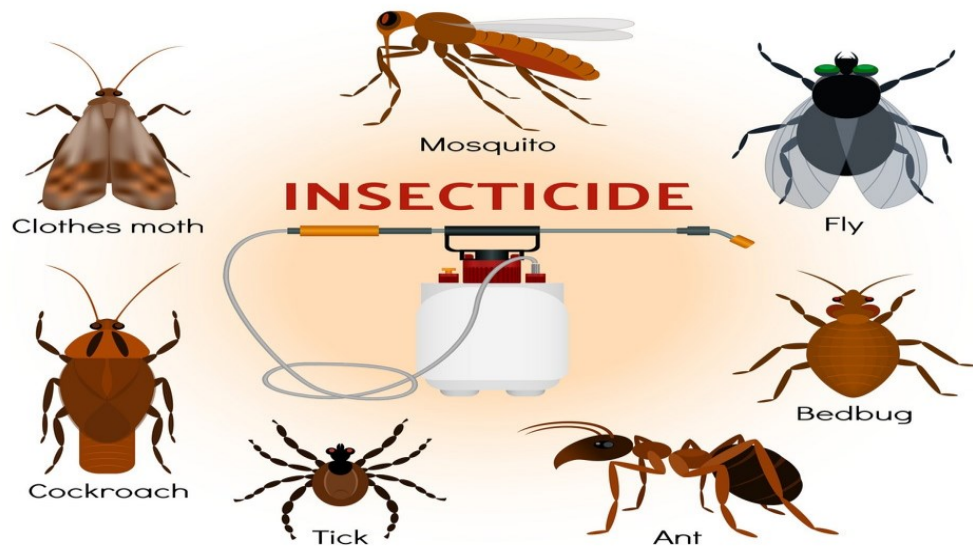

1. Cleaning Services

- Residential Cleaning: Regular and deep cleaning for homes, apartments, and villas.
- Commercial Cleaning: Office cleaning, retail spaces, hotels, and medical facilities.
- Industrial Cleaning: Factory, warehouse, and industrial site cleaning.
- Carpet & Upholstery Cleaning: Professional stain and dirt removal for fabrics and carpets.

2. Fumigation & Pest Control

Performance Review

For the year 2024/2025 we were delighted to perform various tasks with private and government institution which were neatly and timely completed as the contract demanded

Accomplishing period of the contracted tasks has been key element in evaluating companies performance in meeting customer satisfaction. Delivery period has been the main characteristics in our daily assessment in meeting customer satisfaction.

Quality review performance we focused in providing products that are industrial and manmade, approved by Tanzania Bureau of Standard, Tanzania Food and Drugs Authority. The products sold includes imported and made in Tanzania.

Code of Conduct for OUR Cleaning and Fumigation Services

This Code of Conduct reflects values that ensure ethical practices, regulatory compliance, and a commitment to sustainability, helping to foster a trustworthy and reputable company in Tanzania's cleaning and fumigation services sector. We, at [BLOGRE Company], are committed to delivering high-quality cleaning and fumigation services in a professional, ethical, and responsible manner. This Code of Conduct sets the standards for all employees, contractors, and partners associated with our company, guiding their actions, behaviors, and decision-making.

1. Ethical Behavior and Integrity

- All employees and stakeholders must act honestly, transparently, and with integrity in all interactions.
- Avoid any conduct that could harm the reputation of the company or compromise its ability to provide quality services.
- No employee shall engage in any form of bribery, corruption, or unethical practices in connection with company activities.

3. Health, Safety, and Environment

Ensure compliance with all relevant health, safety, and environmental regulations in Tanzania, including standards set by the Ministry of Health, OSHA, environmental bodies, Tanzania plant health and pesticides authority (TPHPA).

- Employees are required to use protective gear, follow safety protocols, and report any hazards or unsafe conditions immediately.
- Waste disposal, particularly chemicals used in cleaning and fumigation, must be carried out following legal and environmental guidelines.

4. Professionalism in Service Delivery

- Always provide services in a professional and efficient manner, respecting the customer's premises, property, and privacy.
- Workers must be trained and knowledgeable in cleaning and fumigation techniques, safety measures, and customer service.
- Equipment and chemicals used for cleaning and fumigation should be handled with care, ensuring the highest quality of service and safety for both employees and clients.

5. Confidentiality and Privacy

- Respect the confidentiality of client information. Employees should not disclose personal or business information acquired during the course of their duties without proper consent.
- All records and documents related to clients and services should be securely stored and handled with the utmost respect for privacy.

6. Fair Treatment and Non-Discrimination

- We are committed to promoting diversity and inclusion within the workplace. Discrimination, harassment, or any form of inappropriate behavior based on gender, age, race, ethnicity, religion, or other personal characteristics will not be tolerated.
- Treat all customers, suppliers, and colleagues with respect and fairness.

7. Compliance with Laws and Regulations

- The company and its employees must comply with all relevant laws and regulations of Tanzania, including the Companies Act, Occupational Safety and Health Act (OSHA), and regulations related to pest control and fumigation services under Tanzania plant health and pesticides authority (TPHPA).
- All necessary licenses and permits must be obtained and maintained in compliance with Tanzanian law.

8. Accountability and Reporting

- Employees are encouraged to report any violations of this Code of Conduct, unethical behavior, or safety concerns to their supervisors or the designated compliance officer without fear of retaliation.
- Any reported violations will be promptly investigated and, if necessary, corrective actions will be taken.

9. Continuous Improvement

- Employees are expected to engage in ongoing professional development, enhancing skills and knowledge related to cleaning, fumigation services, and safety practices.
- The company will actively seek to improve the quality and efficiency of its services through innovation, feedback, and employee contributions
